

ACL700 Multi Purpose Accessible Slam Latch.

The new ACL700 multi purpose accessible slam latch from Morgan has been designed to suit a variety of applications where a standard accessible lockset would not be suitable or practical.

The latch body incorporates a simplified internal mechanism to ensure a smooth and easy operation by any existing National Key Scheme (NKS) key.

The ACL700 latch is fully reversible to suit left or right handed doors, opening in or out.

Operation.

Outside - By accessible key only.

Inside - By oversized high visibility slide button.

Note:

If used on toilet or washroom doors an additional privacy bolt should be fitted.

Each latch is supplied with:

2 striker plates (1 x surface mounted and 1 x mortice fitted)

High visibility escutcheon *(shown right)*

Installation key

Advisory plate *(shown left)*

Left and right open labels

All fixing screws

Fitting instructions

Applications

Portable toilets and washrooms

Modular cubicles

Temporary installations

Wheelchair access gates

Lift and ramp access points
